

VPAT™

Voluntary Product Accessibility Template®

The purpose of the **Voluntary Product Accessibility Template**, or **VPAT™**, is to assist Federal contracting officials and other buyers in making preliminary assessments regarding the availability of commercial “Electronic and Information Technology” products and services with features that support accessibility. It is assumed and recommended that offerers will provide additional contact information to facilitate more detailed inquiries.

The first table of the Template provides a summary view of the Section 508 Standards. The subsequent tables provide more detailed views of each subsection. There are three columns in each table. Column one of the Summary Table describes the subsections of subparts B and C of the Standards. The second column describes the supporting features of the product or refers you to the corresponding detailed table, e.g., “equivalent facilitation.” The third column contains any additional remarks and explanations regarding the product. In the subsequent tables, the first column contains the lettered paragraphs of the subsections. The second column describes the supporting features of the product with regard to that paragraph. The third column contains any additional remarks and explanations regarding the product.

Date: October 2011

Name of Product: Aplia

Voluntary Product Accessibility Template Summary		
Guideline	Applicability	Compliance
Section 1194.21 Software Applications and Operating Systems	Not applicable	
Section 1194.22 Web-based Intranet and Internet Information and Systems	Applicable	Supports
Section 1194.23 Telecommunications Products	Not applicable	
Section 1194.24 Video and Multimedia Products	Not applicable	

Section 1194.25 Self-Contained, Closed Products	Not applicable	
Section 1194.26 Desktop and Portable Computers	Not applicable	
Section 1194.31 Functional Performance Criteria	Applicable	Supports
Section 1194.41 Information, Documentation, and Support	Applicable	Supports

Section 1194.22 Web-based Internet information and applications

Voluntary Product Accessibility Template

Criteria	Supporting Features	Remarks and explanations
(a) A text equivalent for every non-text element shall be provided (e.g., via "alt", "longdesc", or in element content).	Supports	Appropriate text alternatives are provided for non-text elements.
(b) Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.	Not applicable	No multimedia is present.
(c) Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.	Supports	Color is not used as the sole means of communicating information.
(d) Documents shall be organized so they are readable without requiring an associated style sheet.	Supports	Style sheets are not necessary to access the content.
(e) Redundant text links shall be provided for each active region of a server-side image map.	Not applicable	There are no server side image maps used in this site.
(f) Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.	Not applicable	There are no server side image maps used in this site.
(g) Row and column headers shall be identified for data tables.	Supports	Data tables have appropriate headings.
(h) Markup shall be used to associate data cells and header cells for data	Not applicable	There are no complex data tables used in this site.

tables that have two or more logical levels of row or column headers.		
(i) Frames shall be titled with text that facilitates frame identification and navigation	Not applicable	Frames are not used.
(j) Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.	Supports	Pages do not contain flashing elements.
(k) A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of this part, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.	Not applicable	An accessible alternative is not required.
(l) When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by Assistive Technology.	Supports	Script output is read properly by assistive technology.
(m) When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with 1194.21(a) through (l).	Not applicable	The pages do not require plug-ins.
(n) When electronic forms are designed to be completed on-line, the form shall allow people using Assistive Technology to access the information,	Supports	Forms are fully accessible to assistive technology users.

field elements, and functionality required for completion and submission of the form, including all directions and cues.		
(o) A method shall be provided that permits users to skip repetitive navigation links.	Supports	Heading tags are used for page navigation and skip links are provided.
(p) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.	Supports	Users are given warning of session time outs and allowed to respond.

Section 1194.31 Functional Performance Criteria Detail

Voluntary Product Accessibility Template

Criteria	Supporting Features	Remarks and Explanations
(a) At least one mode of operation and information retrieval that does not require user vision shall be provided, or support for assistive technology used by people who are blind or visually impaired shall be provided.	Supports	Screen readers and magnification are fully supported.
(b) At least one mode of operation and information retrieval that does	Supports	Basic site navigation as well as some of the site's

Section 1194.31 Functional Performance Criteria Detail
