

Dear District Administrator,

Thank you for your interest in *Pathways* from National Geographic Learning (NGL). We are excited to offer this first-of-its-kind, total-access subscription model to allow districts to make an impact on the lives of all students. *Pathways* can help to broaden your district's course offerings while adhering to budget restraints and provide a pathway to career and college readiness. This is a financially sound alternative to make high-quality programs affordable for all districts with the goal of significant savings and greater flexibility. With a variety of digital learning platforms, you can inspire your educators, boost student engagement, and see measure student success.

Here's how it works—adopt NGL's online learning programs with eBooks, assessments and interactive assignments for a greatly reduced cost and receive:

- Access to NGL's award-winning platforms like MindTap, WebAssign, OWLv2, proven to boost outcomes and increase engagement.
- All-you-can-learn digital access to more than 200 digital learning programs, dozens of study guides and study tools covering Advanced, Honors and Electives along with Career and Technical Education.
- 12-month access of up to six programs which the students place in their "digital locker" and can reference whenever/wherever they wish for one year.
- New editions and enhancements, ensuring all students are receiving the best programs on the market.

*Pathways* reduces the overall per student spend for site-based decisions. It also reduces annualized expenditure in lieu of the usual sizable upfront investment.

To learn more about this ground breaking, affordable, and flexible way to purchase NGL programs, please reach out to your local sales consultant (NGL.Cengage.com/RepFinder) or go online to obtain a free trial access to the different digital learning platforms (NGL.Cengage.com/NGLPathways).

Best regards,

*Vincent Grosso*
